

ADVANCED APPLICATIONS OF BOTULINUM TOXIN

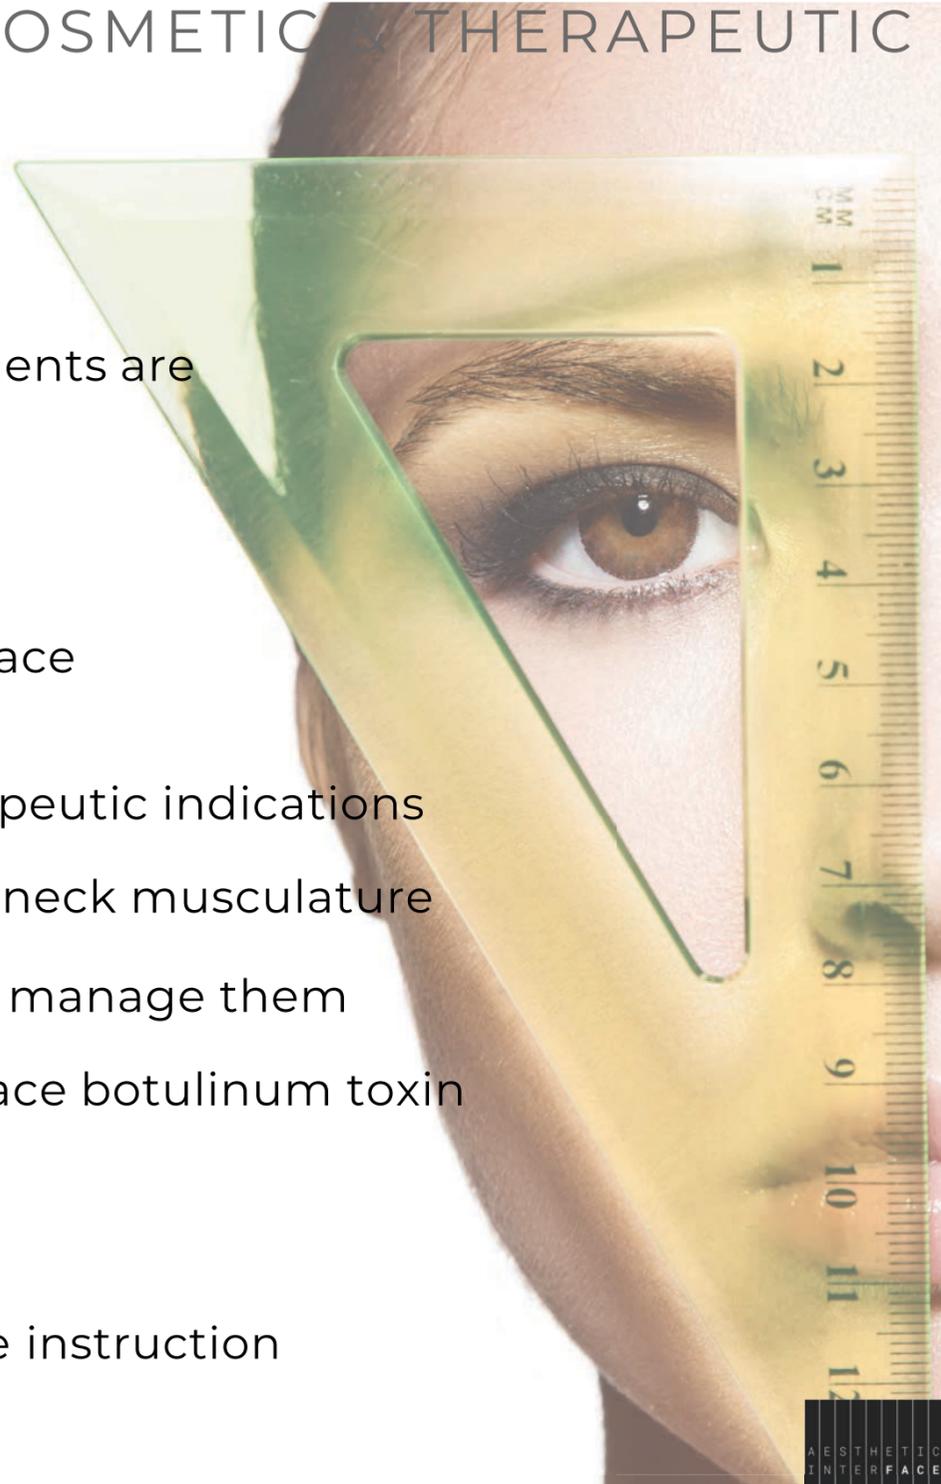

An intense **one-day** course that builds on the fundamental knowledge of botulinum toxin and expands your scope of practice. Techniques learned in Level 1 are refined and comprehensive lower face treatments are covered in detail.

- Pre-requisite: Must have taken Level 1 or an equivalent course.

BOTULINUM TOXIN LEVEL TWO

COSMETIC & THERAPEUTIC

HIGHLIGHTS

- Patient assessment and consultation
 - In-depth review of facial anatomy to ensure treatments are safe and effective
 - Expand neuromodulator portfolio and understand rationale for toxin choice
 - Advanced techniques to improve results in upper face botulinum toxin treatment
 - Lower face botulinum toxin for cosmetic and therapeutic indications
 - Correct asymmetric smiles by re-balancing lip and neck musculature
 - Risks, complications, contraindications and how to manage them
 - Appropriate fee structure and how to build lower face botulinum toxin into dental treatment plans
 - Customizable documentation templates
 - Diagnose and treat model patients with one-on-one instruction
-
