

CUSTOMIZED COURSES

DESIGNED TO SUIT **YOUR** NEEDS

Customized courses are **one-day, intense studies** of particular areas and/or techniques with an emphasis on **guided patient treatment**.

The majority of these courses are spent injecting live patients. All custom courses include a **two-hour staff training** to ensure the injectable practice is meeting the goals of the overall practice.

Courses may focus on areas from Level 1, Level 2 or other advanced areas/techniques:

- Facial Sculpting
- Layering Products
- Jawline Contouring
- Tear troughs and periorbital augmentation
- Temporal hollows
- Use of cannulas
- Radiesse® (calcium hydroxyapatite)
- Kybella® for submental fat lipolysis
